

HAWAIIAN LAVA FLOW

15 oz can cream of coconut
15 oz pineapple juice
1 cup half & half
strawberries
sugar
ice

1. Mix together equal parts cream of coconut and pineapple juice. Add half and half until it turns white (about 1 cup).
2. In a separate bowl puree strawberries and sugar to make a strawberry syrup. It should be somewhat thick.
3. Pour strawberries in the cup about a 1/2 inch to 1 inch in height. Put ice in your blender and pour the coconut mix in until it's at an even height with the ice. Blend, then pour in the cup with strawberry mix.
4. The strawberries should come up the sides of the cup (to look like lava!). If it doesn't, either thin out your strawberries with a little water, or before pouring the coconut take the cup and swish the strawberries around so they stick on the sides of the cup.
